Dear Hiring Manager,

I am writing to express my interest in a part-time job position.

As a student studying computer networking, I am eager to gain practical work experience while utilizing my excellent computer and Programming skills and learning the communication skills to be able to provide excellent customer service.

As a current computer networking student at CUT , I have gained a solid foundation in programming with C# and its ASP.NET MVC Framework. I have also self taught myself other programming languages like Python, Java, and web development technologies such as HTML, CSS, JavaScript - its React.js library and the Next.js React framework.

I recently completed FreeCodeCamps Javascript Advanced Algorithms & data structures course and gained basic javascript mastery. I believe that my ability to learn new programming languages quickly and efficiently will allow me to adapt to the demands of the role in a short span of time.

Additionally, my current obsession is Full Stack Web Development with Next.js, MongoDB, Node.js & Express.

I am a quick learner with a strong attention to detail, and I am always interested in improving all aspects of my professional skills. Although I do not have any previous work experience, I am confident that I possess the necessary skills and qualities to thrive in this position. I am professional and well-mannered, and have a friendly and approachable demeanor that will allow me to work effectively with customers and colleagues.

I am excited about the prospect of working for your company and contributing to its success. I am also willing to undergo any additional training that may be required to ensure that I am fully prepared for the job. I am eager to contribute to your team and to learn from experienced professionals in the industry.

Thank you for considering my application. I look forward to the possibility of an interview.

Sincerely,

MODIBA JOSHUA NGOAKO

MODIBA JOSHUA NGOAKO
